A WORD . . .

From a humble beginning in 1923 as a broker of fig cuttings—a booming industry on the Gulf Coast at that time, our late Father guided the Altex Nursery Co. until his passing, at which time approximately 50 acres were solely devoted to the production of quality plants for a discriminating clientele. At the present time there are approximately 75 acres

under cultivation, and we are constantly striving to produce top quality at least possible cost.

PRICES—Prices contained herein cancel all previous prices and are subject to change without notice. Prices quoted are to bona-fide dealers only, and are quoted fob our nursery, Alta Loma, Texas.

Per each rate will prevail on 1-9 of same grade and variety billed at 100 rate. On truck or van loads, 25 of same grade and variety will take 100 rate.

TERMS—Our regular terms are cash, but we will be happy to make credit arrangements with established concerns. Satisfactory references, proof of responsibility, and time for investigation required. All accounts are due and payable 10th of month following date of delivery. Overdue accounts are subject to 1% monthly interest charge and sight draft.

NON-WARRANTY—We exercise diligent care to keep all stock held for sale by us to be true to name and in good condition when we ship. Should any prove otherwise, we will not be liable for any amount greater than original purchase price. We do not guarantee our plants to live, due to conditions beyond our control after leaving our nursery. We will not entertain any claims made after ten days from delivery.

SHIPMENT—All shipments are made at purchasers risk; our responsibility ceasing upon acceptance by carrier. We will be glad to assist whenever possible on such claims.

We wish to take this means to express our heart-felt appreciation to our many friends in the industry for their patronage in past seasons, and look forward to serving them again. To those with whom we have not had the pleasure to serve, we invite your inquiries and trial orders.

The latch string is alway out at ALTEX, and we cordially invite you to come by and visit with us, to see and appreciate the top quality stock we are offering. We can always find a pot of coffee, too.

NOTES

ALL ROADS . . .

... LEAD TO ALTEX

Yes, from North, East, South, or West, the shortest distance to greater profits in Landscaping or yard sales, is the road that leads you to ALTEX, where organic feeding, sufficient rainfall, and proper care insures a plant with a heavy root system, and branches that have good "body", enabling them to withstand extremes in the weather. Being Texans, we have to brag some. We believe that we are blessed with the finest balling soil to be found in Texas, or anywhere else, and we would welcome an opportunity to prove our point to you.

If you have never handled ALTEX stock, send us a trial order today, and watch your sales and profit attain new heights. Don't delay . . . do it today.

For your convenience, we have a trailer truck capable of carrying up to 20,500 pounds available for deliveries to any part of Texas or without. We will be glad to quote you a delivery price upon request.
